

## APPLICATION

monta pack 376 is a very sturdy adhesive tape for the closure of heavy to very heavy cartons, palletising and for strapping and bundling. The tape is especially suitable for heavily strained packaging. Because of the backside coating the tape is easy to unwind and therefore especially suitable for the application with packaging machines.

## PROPERTIES

- high tensile strength
- high immediate tack and adhesion on various surfaces
- easy to unwind
- resistant to diluted acids and alkalies
- temperature resistant: after application at room temperature from approx. -30°C up to +150°C short term
- suitable for recycling processes
